

InsideVue Limited Statement of Purpose

Aims & Objectives of Regulated Activity

1. Our aim is to provide a rapid, high quality diagnostic ultrasound service with responsive, individualised care within a safe environment.

Examinations are undertaken by qualified sonographers led by our Consultant Radiologist on the latest scanning technology from Canon Medical Systems.

Our success is based on building long-term partnerships with our referring GPs. InsideVue is committed to transparency and ethical behavior in all our activities. We actively promote equality and diversity across the company providing safeguards to ensure all staff and patients are treated with dignity and respect. We are an AQP and Non-AQP provider and deliver a personal telephone booking service for our patients.

2. Regulated Activity Services Provided

GP referrals are required for all NHS scans which are commissioned by local Clinical Commissioning Groups. Ultrasound examinations undertaken on adult and paediatric patients include abdominal, gynaecological, musculoskeletal, renal, small parts (testicular and thyroid), soft tissue and vascular.

We are committed to working with CCGs to meet the increasing pressures of demand and availability on diagnostic services.
